Elegant Design

High Performance

Flexible Ergonomics

The POS-510 EyePOS GT II has the character of a stylish sports car. Just like the POS-500 EyePOS II, it is a POS system with the glass-metal stand engineered by 4POS that shines without and convinces within. New with increased graphics/processor performance and USB3.0. With this model, 4POS has developed a compact all-in-one POS solution absolutely matchless in design. The POS terminal can be used freestanding on the counter, fixed at the checkout, mounted on the wall – it really couldn't be more flexible.

Touch System POS-500 EyePOS II
POS-510 EyePOS GT II

1. Bezelfree touch

2. Stand in metal-glass-construction
